A creative hangtag is the best method to share your ideas with your customers. A blank canvas (sometimes literally) to tell your story. Tags are endless in their possibilities and we'll assist you in creating a unique hangtag. Whether made from paper, plastic, wood, coconut shell, recycled material, or canvas—PCB can help.

Zipper Pulls

No product is complete without trim. These items are not just necessary to zip, button, or close a garment—they are instrumental in branding your apparel. A custom zipper pull that reinforces your brand everytime a sweatshirt is zipped. A button that is read each time it's used. A rivet or buckle on constant display. Trims are key to standing out in the marketplace.
